DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 2, 6, 9, 10 and 13-15 are rejected under 35 U.S.C. 102(b) as being anticipated by Bothra US 6,030,885.

Bothra discloses a process of dicing a wafer and chips formed by the process including cutting around the chip (18) along a plurality of straight-line segments such that all resulting corners of the chip after cutting have equal angles of greater than 90° (see figs. 3,4,7, 10-11 and related text).

Claims 3-5, 7, 8, 11, 12 and 16-20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
